## Fred Antrobus Passed Away In Calgary On Sunday Following An Illness Of Several Months

Had Served Community Faithfully As A Councilor And Mayor For Fifteen Years; Had Been Police Magistrate For Past Nine Years.

It was with a sense of real regret that Coleman citizens generally heard the news broadcast on Sunday evening which carried the announcement of Fred Antrobus' death at Calgary that day. Deceased, 64 years, had been in ill-health for several months and had been a patient in a Calgary hospital for a month.

Born in Golborne, Lancashire, England, he came to Canada and settled in Coleman in 1911. He opened a shoe repair store in the building now occupied by the post office and went into partnership with a Mr. Fred Cody. He enlisted in the 192nd Battalion in the First Great War and served overseas. Upon his return from overseas he again settled in Coleman, once again operating a shoe repair store and working in International, first as a miner and later upon receiving his third class papers as a fireboss.

He later purchased the main street premises which he occupied until his death and conducted a shoe store in conjunction with his shoe repair trade up until about 1937.

He entered the town council in 1930 and served as a councillor for ten years before he became mayor in 1940, a position he retained until he retired from municipal politics in 1945.

He was a Justice of the Peace for two years before being appointed as Police Magistrate 9 years ago.

An ardent supporter of the provincial Social Credit party he took an active part in political campaigns and up until the last election in August was constituency chairman of the Social Credit party for Pincher Creek-Crows Nest. He sold out his business in order to devote his entire time to provincial government insurance and allied business.

He was keenly interested in curling and many bonspiels he

had attended in company with Harry Boulton, John D'Appolonia, the late Albert Short, Ed. Ledley and Sam Moores, just to mention a few.

He was a member of St. Alban's church.

Surviving are Mrs. Antrobus and daughter, Freda, now Mrs. C. J. Ridout, of Toronto, three brothers and three sisters.

The funeral was held from Park Memorial chapel on Tuesday at 2 p.m. with interment taking place in the Field of Honor, Burnside, Calgary.

Palbearers from Coleman included: Frank Akousky, Chief of Police Wm. Antle, R.C. M.P. Constable William Shields and they left on Tuesday morning for the city, accompanied by Mr. Walter, deceased's brother. Sergeant Mudman, of Lethbridge, was another of the palbearers.

Also in attendance at the funeral from Coleman were Councillor Adam Wilson and Coleman Board of Trade secretary N. Nicholas.

## RYPIEN-MISURA PARTNERSHIP TO BE BROKEN

Elsewhere in this issue appears an advertisement inserted by Mr. Steve Ryplen advertising his share of the partnership in the Coleman Meat Market for sale.

Messrs. Ryplen and Misura 2 years ago purchased the business from Mr. Nick Burtink, now retired, and have made a success of their new enterprise.

However sickness has forced Mr. Ryplen to endeavor to sell his share in order that he may go to Calgary and enter Holy Cross hospital for an operation to his back. Mr. Ryplen, upon advice from local doctors, will travel to Calgary on Monday.

## Rev. T. M. Murray Paid A Visit To Old Home Town

First Came to Coleman in 1906 and it was Under His Ministry That Present United Church Was Built; Married Some of Coleman's Couples.

After an absence of thirty years Rev. T. M. Murray returned to St. Paul's United church to pay a brief visit with Dr. and Mrs. R. Magowan and members of the church congregation, several of the latter having been members of his congregation during his ministry here from 1906 to 1915.

Rev. and Mrs. Murray came to Coleman in 1905 settling at Frank The following year they came to Coleman where they resided the next nine years. Rev. Murray having charge of the United church. It was during 1906 that the present St. Paul's United church was constructed, the contractors being Messrs. Smith Bros. & Wilson.

The Manse was built the following year.

While serving as minister here Rev. Murray performed a number of wedding ceremonies and during a brief conversation revealed that he had married Mr. and Mrs. Joe Plante, Mr. and Mrs. Alex. Easton, Mr. and Mrs. Jack Nash, Mr. and Mrs. Thomas Gushki, now of Blainmore.

Their four children, Victor, Joan, Rachael and Mary were all born in Coleman and started their education in the local schools. He revealed that Victor is now married and has a family of two sons. He resides in Toronto. Jean is now Mrs. Shier, has a daughter and resides with her husband at Eugene Falls, Ont. Rachael is now Mrs. Kenneth Hills, of Woodstock, Ont. and she has one son. Mary is now Mrs. Gordon Kirby and has two sons. She resides with her family at Hamilton, Ont.

Following their departure from Coleman Rev. Murray and his family took up residence at Verschole, Ont. where they resided seven years. They resided in turn at Powassan and Kilsyth, Ont. and in 1941 he retired from the active ministry and took up residence at Owen Sound where he and Mrs. Murray reside today.

He remarked that vast changes had taken place in Coleman and that it had developed tremendously since he last resided here.

## St. Alban's Women's Association Organized

A meeting of interest to St. Alban's parish was held at the home of Mrs. R. Patterson on Tuesday evening, Sept. 28, when St. Alban's Women's Association was formed.

A large, lively group of women was present. Officers elected were Mrs. A. Tiberghien, president; Mrs. Plante, vice-president; Mrs. Hartley Dunlop, secretary; and Mrs. J. K. Purvis, treasurer. It was determined to have a share in the bazaar on Nov. 13. Those looking for novelties for Christmas gifts would do well to keep this date in mind. Other interesting plans for the coming year were discussed. Arrangements were made to have a social evening in the Parish hall after Evensong on Sunday, Oct. 10. A program is being arranged and refreshments will be served. All friends and supporters of the church are welcome.

The St. Alban's Women's Association is looking for new active members. The next meeting will be held at the home of Mrs. W. Purvis on Oct. 12. New members are cordially invited to attend.

## SELIKIRK HOCKEY VETERAN DIES AUGUST 26

Selikirk — A professional hockey player on many teams in the United States and Canada for almost 30 years, Johann Magnus "Joey" Thorsteinsson died here Tuesday. The 46-year-old hockey veteran was living at 339 Main street in Selkirk.

For the past season coach of the Selkirk Junior B team, Mr. Thorsteinsson began in professional hockey at the age of 18, playing successively with the Winnipeg Maroons, Coleman Tigers, Regina Caps, Edmonton Eskimos, Duluth Hornets, Buffalo Majors, a St. Paul team, and Minneapolis Millers. He retired from active play to coach a Fort Frances team in 1937 and a Minneapolis team in 1938.

## Mr. And Mrs. H. Jamieson To Leave Sentinel

Given a Farewell Party by One Hundred Friends Last Saturday Evening; to Go to Canmore.

Approximately one hundred friends of Mr. and Mrs. Herb Jamieson gathered in the Morancy dance hall at Crows Nest lake on Friday evening to bid them farewell. Mr. and Mrs. Jamieson, the latter superintendent at East Kootenay's power plant at Sentinel, will leave on October 15 for Canmore where Mr. Jamieson will enter the employ of Canmore Collieries.

Dancing, lunch and refreshments were enjoyed and several friends spoke to express regret at the departure of the honored guests and wishing them success and happiness in their new home. Mr. O. H. Bowen, on behalf of the assembled guests, presented Mr. and Mrs. Jamieson with an electric clock.

Music was played by Mr. William Mason and his associate and thanks is expressed by Mr. Bowen, on behalf of the community, to the services of the two musicians.

Mr. Jamieson came to Sentinel two years ago succeeding Mr. John Van Maarian who now resides at Charlottetown, P.E.I. While residing at Sentinel Mr. and Mrs. Jamieson were very favorably known both by employees at the plant and a number of Coleman citizens.

## WEDDINGS

### NIMCAN — KULIG

A wedding of much local interest took place at Holy Ghost church on Saturday Sept. 4 at 10 a.m. when Helene Frances youngest daughter of Mr. Andrew Kulig, of Coleman, and the late Mrs. Kulig, was united in marriage to Mr. John Nimcan, son of Mr. John Nimcan, of Coleman, and the late Mrs. Nimcan. Rev. Father Leo Sullivan conducted the ceremony.

The bride, in marriage, entered the church beautifully gowned in heavy white satin with long, flowing sleeves and long, light-pink sleeves. Her only ornament, a gift from the groom, was a gold cross. Her bouquet was of red roses.

The bride's attendants included Rose Nimcan, sister of the groom, who chose a gown of blue net skirt with blue satin bodice; Mary Zue, who wore a gown of turquoise blue and Mary Kuchyn who wore a gown of pink embroidered marquisette. All carried bouquets of mixed carnations and wore matching chapel veils and gloves.

The bride's veil was held by two nieces, Pat, Moore and Kathy Kubie. Both children were gowned in matching blue and white dresses and carrying nosegays of pink roses.

Attending the groom were Randy Kulig, brother of the bride, Nick Irbashuck and Joe Getman.

A wedding breakfast was held at the bride's home at which only relatives and immediate friends of the family were present. In the afternoon a reception was held and many friends of the young couple called to wish them health and many years of happy married bliss.

The young couple left shortly after on a honeymoon to be spent at Calgary and Vancouver. For travelling the bride chose a grey suit with pink accessories, and wore a corsage of Gardinias.

Rest is still the most effective treatment for tuberculosis, but there are increasingly hopeful signs that a cure will be found.

## 1821 Citizens Take Advantage Of T. B. X-Ray Clinic's Visit To Coleman; Now Working Blairmore

Monday Morning Saw 358 Persons Pass Through Clinic In A Three Hour Period; Attendance Was Average For A Town Of This Size

The final count at the close of the T. B. Clinic Tuesday evening was 1821.

Up to 9:30 Tuesday morning 1653 citizens had been X-rayed by the T. B. X-ray clinic which had been operating locally since last Thursday morning. The unit is in charge of Technician Edward Chyzowski, assisted by Mr. Stanley Cameron, provincial T. B. Rehabilitation officer with head office at Calgary, who is pinch-hitting for a member of the unit's staff who was unable to make the Coleman trip.

Miss May Dudley, of Hillcrest, presided over the task of issuing the film.

Coleman ladies who volunteered to aid in the clerical work included Miss Helen Rogers, Miss Annie Taron, Mrs. Annie McLean and daughter Doris, and Miss Winnifred Dunlop.

Coleman Lions Club, sponsor of the Clinic's Coleman visit, express sincere thanks to the aforementioned ladies for their much appreciated assistance.

On Sunday afternoon Messrs. Chyzowski and Cameron were the guests of Board of Trade president Percy Dickieson who

took them on a three hours motor trip through the Crows Nest Pass as far as Fernie pointing out scenes of interest. On Monday they travelled to the International coal strip and saw men and machinery at work.

Starting work Thursday evening the unit X-rayed 239 in a three hour period. On Friday morning 307 were X-rayed; Friday night 251 passed through; Saturday morning 155; Saturday evening 157; Monday morning 358; Monday night, 191. Tuesday's results were not available as this was being written.

When asked by The Journal how Coleman's average ranked with the rest of the province in towns of similar size he remarked that in a 4,400 population there were usually 2,500 X-rays. Coleman's population however is approximately 3,500 so that the attendance at the unit here is just about average with the rest of the province.

This morning the unit went to work at Blairmore. It will visit Hillcrest and Bellevue in turn before leaving for Lethbridge.

## WEDDINGS

### JANKOLA—ZUFKA

A wedding of interest to Coleman and Kinnaird, B.C. took place at Holy Cross church, Creston, on Monday, Sept. 20, when Helen, only daughter of Mr. and Mrs. Anton Zufka, of Creston and formerly of Coleman, was united in marriage to Mr. Steve Jankola, son of Mr. and Mrs. Steve Jankola, of Kinnaird, B.C. Rev. Father E. Doyle conducted the ceremony.

The bride, given in marriage by her father, entered the church to the strains of Mendelssohn's Wedding March as played by Ethel Hook, organist. The bride looked beautiful in a white satin gown with full skirt and train, sweetheart neckline, fancy beaded bodice, long, light pink sleeves and a beautifully embroidered silk net veil with Mary Queen of Scots headdress. Her only ornament was a gold heart-shaped cameo locket, a gift from the groom. Her bouquet was of red roses and white carnations held together with a long white ribbon.

Maid of Honor was Bernice Heembrock, of Creston, who chose a sky blue nylon gown with full swirl skirt, short sleeves and sweetheart neckline with matching chapel veil held in place with a wreath of pink roses. Her only ornaments were two strings of pearls with matching earrings. Her bouquet was of pink and white carnations.

Bridesmaid was Betty Kastelan, of Creston. She chose a pink shirred gown, long sleeves, sweetheart neckline, shirred waistline and full swirl skirt, matching chapel veil held in place with pink satin rosettes. She also had two strings of pearls and earrings to match. Her bouquet was of pink and white carnations.

The bride's gifts to her two attendants were yellow and white glimmer pins.

Attending the groom was Joseph Simonetta, of Trail. The usher was Ivan Miro, of Castlegar. Their gift from the groom was brown leather wallets.

The flower girl was Bernice Fontana, of Coleman, and the page boy Leonard Gallo, nephew of the groom. The Altar boys were Ralph Patrick and Buddy Bruder.

The choir sang Nuptial Hymn Mass with Mrs. T. Staples as director and Miss Ethel Hook as soloist.

## TOWN COUNCIL

## Havens For The Displaced

ONE OF THE GREATEST and most grave of the human problems arising from the war is that of the hundreds of thousands of displaced persons left in the areas of Germany, Austria and Italy now occupied by the Western powers. Accommodated in camps, these people have awaited the fulfillment of the promise that they would some day be given the opportunity of finding new homes and making their living in lands where their freedom and independence would be assured. Although this intention has not been altered in any way, and havens have been found for many, a great many more are still waiting to be placed, after more than forty months in "D.P." camps.

### Some Returned To Native Land

In spite of the fact that the International Refugee Organization reduced the number of people in its care by 244,000 during the first year it was in operation, 900,000 remained to be placed at the first of May of this year. Of the 244,000 removed from the camps, 77,000 were repatriated and 167,000 emigrated overseas and to various parts of Europe. It was intended that homes should be found for all displaced persons in the Western-occupied areas inside of three years, and it is apparent that the work will have to be considerably accelerated if this time limit is to be met. Lack of shipping space and the fact that many of the 21 countries which had participated in the formation of the Refugee Organization were willing to accept, for the most part, only able-bodied workers for specific tasks, have made the problem more difficult.

### More Progress Now Expected

It is now expected that there will be greater progress in this undertaking as shipping space becomes less scarce and more countries show willingness to accept displaced persons and it is now hoped that 380,000 will be placed during the next year. Twenty per cent. of these are expected to go to Western Europe, where the need for additional labor is urgent. An equal number are expected to go to Latin America, while the United States will admit 205,000 during the next two years. Australia plans to accept the same number eventually, and has provided for the arrival of 20,000 next year. Canada has expressed the intention of opening her doors to 60,000 next year, and to 40,000 in succeeding years as long as the need remains. Canada has already admitted 40,000 displaced persons and Canadians have reason to be proud of the part their country is playing in solving this great world problem.

### Saskatchewan Men Buy Alberta Coal Mine

EDMONTON. — A group of businessmen headed by E. J. Kern of Regina have bought the Lakeside Coal Ltd. mine at Bobb, Alta., 33 miles south of Edson, Alta., for about \$300,000, it was learned here.

A disastrous fire closed the mine four years ago and it is estimated it will cost about \$250,000 to put it in operation again. The mine produced a hard type of coal.

Other Saskatchewan men concerned in the purchase are Roy D. Trumble, James Mortenson, both of Swift Current; Alvin Booker, Lorne Kerr and J. A. Matheson, all of Gull Lake.

### 900,000 WEAR GLASSES WITHOUT EXAMINATION

LONDON.—Nearly 900,000 elderly persons in Britain who wear glasses have never had their sight tested, Sir William Douglas, secretary to the ministry of health, said.

He said that during a medical survey in Wolverhampton one-third of those questioned said their glasses were unsatisfactory, while one-sixth wore glasses bought from a general store.

## How To Get Quick Relief From Sore, Painful Piles

I can help most pile sufferers. I believe I can help you too if you want relief from the itching soreness and burning pain of piles. My Hem-Roid treatment is different. Hem-Roid is an internal medicine—small tablet taken with a glass of water. It corrects the conditions (NIGHT) your body that cause you such intense pile soreness and pain. But I'll be honest with you. Hem-Roid seems to help most pile sufferers more than others so I want to protect those who are not satisfied. I'm sure to ask people to pay for something that does not help them as much as they expect it to. If Hem-Roid helps you, surely it is worth the small cost. Otherwise I want you to have your money back. I'll take your word. I find people are honest about such things. All I ask is you use Hem-Roid as directed for 10 days. Then if you are not satisfied return what you did not use and get your money back. This is an unusual offer but Hem-Roid is an unusual medicine. It has been sold on a refund promise for over 40 years. I am not asked to make many refunds so it must help most folks who use it. At all drug stores.

**BLAME CHICKEN HAWK FOR CHILD'S DEATH** — A marauding chicken hawk was blamed by provincial police for the death of five-month-old Jeanne Neault, as she played in her carriage on the front veranda of her parents' home at Grande Mere, Quebec. While the child's mother, Mrs. Jean Neault, was busy with her housework, police believe the hawk, which already has carried off a number of chickens in the district, landed on the baby's forehead and tore its face to ribbons. Mrs. Neault found her child dead when she went to bring it in. Part of the baby's nose had been torn away and the chin partially clawed. —S.N.S. photo.

## FUNNY And OTHERWISE

The master of the house was surprised to find a plump turkey served up for dinner one evening. He made enquiries and was unable to learn about a turkey having been bought. Finally he enquired of Sam, the general handyman of the household.

"Why," Sam explained, "dat turkey war roostin' on our back fence for four nights, so I sez mornin' I jist seized him for rent of dat fence."

When the motorist who had crashed into a telegraph pole and brought down the wires recovered consciousness, his hands were clutching the wires.

"Thank Heavens," he exclaimed, fervently. "It's a harp!"

Father: "Hullo! Where's Alfred gone to?"

Mother: "If the ice is as thick as he thinks it is, he's gone skating, but if it is as thin as I think it is, he's gone bathing."

Auntie: "Do you ever play with bad little boys, Willie?"

Willie: "Yes, Auntie."

Auntie: "Why don't you play with good little boys?"

Willie: "Their mothers won't let me."

"Ice-land," said the teacher, "is about as large as Siam."

"Ice-land," wrote Willie afterwards, "is about as big as teacher."

"Ah, there you are, waiter. The sea air has made me hungry. I think I'll have some chicken. It must be a young cockerel, this year's bird, and I want a leg—nothing else, mind."

"Certainly, sir. Right or left leg?"

"How are you getting on in your new place, Nora?"

"I think I'm going to like it. Yesterday I overheard the mistress say I performed my duties in a very perfunctory manner. That's the first praise I've had from her."

The delivery boy from the fishmonger's presented his package to the servant girl with the simple announcement: "It's C.O.D."

The girl bristled up and replied, "You needn't spell it out for me—and besides, the cook asked for haddock."

"So you've just got back from your holiday. Feel any change?"

"Not a cent."

Banker: "I'm proud to say that I'm a self-made man."

Doctor: "You're lucky. I'm the revised word of a wife and three daughters."

### Church In Need Of Ministers

VANCOUVER.—United Church of Canada is 405 ministers short and finds it hard to find men for its expanding work.

Low pay causes the public shortage, some commissioners suggested at the church's general council here.

Rev. Allan H. Ferry of Toronto said the meagre pension is "preventing the young men from joining the ministry."

Said another Toronto minister, Rev. H. C. Fether: "Too many of our ministers, particularly younger men, are leaving the ranks, some for other fields of service and others to ministries in our sister church across the international boundary."

### Butter Supply Assured For Winter Months

OTTAWA.—Assuring Canadian consumers of an adequate butter supply throughout the winter months, the Canadian Government has completed arrangements for the purchase from Denmark and Australia of an additional 6,000,000 pounds of butter, bringing the total amount to be imported to approximately 15,000,000 pounds. It was announced here.

In making the announcement, Rt. Hon. C. D. Howe, Minister of Trade and Commerce, said he thought this importation of butter would take care of the minimum requirements during the seasonal shortage in this country.

### New Oil Holdings Reach Record

EDMONTON. — Some 9,500,000 acres of oil and gas rights were taken out in Alberta during the last month, a report by Nickle Map Services of Calgary shows.

The report says new holdings, a record for any one month, increased total leases and reservation in the province to 41 million of Alberta's 165 million acres.

### TO OPERATE WINTER AIRMAIL SERVICE TO THE NORTHWEST

OTTAWA. — The Post Office Department announced that an airmail service will be operated during the winter months between Churchill, Man., and Chesterfield Inlet in the Northwest Territories.

Three round trips by mail plane are scheduled between Oct. 1 and April 1.

At the same time, the Department announced that postal money order service to Hyderabad has been suspended, presumably as a result of the recent conflict with India.

### Canadian Press Survey

## Most Farmers Across Canada Harvested Better Crops This Year

CANADIAN farmers have just about finished the harvest of a bumper crop. A Canadian Press survey showed that all provinces except British Columbia and Nova Scotia expect more valuable yields than in 1947. Despite late planting, due to a rainy spring and an exceptionally dry period in late summer, most crops are above average.

The farm labor supply remains scarce in all provinces. National employment offices reported that in most instances they were unable to provide enough harvest workers through transfers from one province to another. Displaced persons have helped to alleviate shortages.

Wages to farm laborers increased all across the Dominion. On the prairies workers got \$6-\$8 daily. In New Brunswick a fast potato-picker can earn \$20 a day.

The Nova Scotia apple crop, estimated at 1,000,000 barrels, is about half normal. Other crops grew well after a slow start. The apple crop may be worth \$4,000,000.

New Brunswick may have one of the best crop years in history. Potatoes, the biggest cash crop, are expected to equal or surpass the 1947 yield of more than \$16,000,000.

Quebec farmers will harvest one of their best yields. Estimates place the value at more than last year's \$162,000,000.

The estimated value of Ontario

field crops is \$386,881,000 compared with \$280,340,000 last year. The fruit and vegetable yield is down from \$56,415,000 in 1947 to about \$55,445,000.

Good Quality Saskatchewan crops are better in both yield and quality. About half the marketed wheat is grading at No. 1 Northern. Only 11 per cent. received this grade last season. Wheat is averaging 13 bushels to the acre, compared with 12.2 last year.

Alberta crops are reported better than in 1947 when they brought in \$238,000,000. About 117,000,000 bushels of wheat will be harvested at an average yield of 18.5 bushels to the acre—better than expected after a wet spring and late planting.

In British Columbia's Okanagan Valley there is a big crop of good-quality apples. Other fruit crops were adversely affected by a wet summer, and reduced quality is reported in some cases. It is expected that the total crop value will fall far below last year's peak.

**RECOVERS FROM ILLNESS TO RETURN TO CANADA**—When Charles Britnell arrived back in Canada with his English wife and two children, he was minus his right leg because he had taken a temporary job in England while awaiting passage to Canada. Mr. Britnell, while working with a railway, fell beneath a moving train and his right leg was severed at the hip. His left leg was broken in four places. After a slow recovery, Charles and his family returned to Canada and settled at Angus, Ont. Above Charles is seen with his wife and two sons, Roger and Kenneth.—S.N.S. photo.

**PLAYS "SANTA CLAUS" TO SCHOOL CHILDREN**—For as long as he lives and maybe longer, 63-year-old Mayor Stanley Knight plans to give annually to every one of Meaford, Ontario, public school children, a cash present on their birthdays. The gift money for this year, which more than half of the 350 enrolled children already have received, will be completely distributed by the end of December. It is arranged to encourage students to earn presents. This is the first year. A child in the early grade receives 50 cents; the presents then rise by 10 cents a grade, with grade eight students getting \$1.20.—S.N.S. photo.

**HEADS THE LIST AS GREAT ANGLER**—More than 100 were caught by Frederico Moyer of Havana, Cuba, than by any other angler in 5th International Tuna Cup match, which was held at Wedgeport, N.S. He is seen with a 621-pounder. The U.S. team were the winners, with the Cuban team taking second place.—S.N.S. photo.

**MEET "LUCKY" — THE HERO**—Alert hero dog is "Lucky", shown here with co-owners Myrna and Henry Stephens. Family was visiting Ottawa and Lucky was playing with another dog when the latter fell into the canal. Lucky ran to the highway, barked to attract the attention of a taxi-driver, and led the man to the canal who rescued the canine.—S.N.S. photo.

**RETAINS LIGHTWEIGHT BOXING TITLE**—Arthur King, Negro boxer from Toronto, successfully defended his Canadian lightweight title at the Maple Leaf Gardens in Toronto recently by stopping Harvey Mathe, from Sudbury, Ont., after 10 seconds of the eighth round of a scheduled 12-round bout. Though off in his timing, and a mite arm-weary at times, King clearly outpunched and outclassed his adversary all the way. The referee awarded the fight to King by a technical knockout. Above, King is shown punching it out with Mathe.—S.N.S. photo.

**TO MARRY CANADIAN**—Irish airline hostess, Joan Sheila Handcock, of Dublin, Ireland, is sailing from Southampton for Canada to marry Edward Darks of the Canadian meteorological office at Goose Bay, Labrador. They met during one of her air trips.—S.N.S. photo. 2797

**OSGOODE HALL TURNS OUT 100 MORE LAWYERS**—From Windsor to see "daddy graduate" at Osgoode Hall, Toronto, Ont., came Sheila Ann, five, shown here with Mr. and Mrs. William A. Cowan. An even hundred law students, men and women, wrote their names into the law society's membership books at the graduating ceremonies. Greetings from lawyers overseas were extended by John A. Costello, prime minister of Eire, who is a barrister. There were four girls in class.—S.N.S. photo.

### NOTES AND COMMENTS

#### CIVIC CENTRE

Credit should be given the "Fun For You" show staged in the arena two weeks ago for bringing into sharp focus the dire need for a Community hall in the town. Several hundred citizens sat shivering for an hour and a half watching the show. Had the town possessed a hall these same people, and the scores who stayed at home because of the cold, could have watched the show in the comfort of a heated hall.

Vacation time is over and there is no longer any need of further delay in promoting civic centre plans. The finance committee early this summer determined that \$70,000 could be raised locally in a given period. The committee's plan should be put into operation and funds accumulated for a start on the Civic Centre early next spring.

The town's population is on the increase thus making it more imperative that the cultural activities of the community should be given full scope to develop and expand. Few citizens today will voice opposition to a plan that would have for its objective a new Community hall which would form the nucleus of a Civic Centre.

#### KEEPING ABREAST OF MEDICAL SCIENCE

The visit of the provincial T. B. Clinic to Coleman this past week brought this question to mind: Are Mr. and Mrs. John Public keeping abreast of medical science?

As far as Coleman citizens and the T.B. Clinic are concerned they most definitely are. However medical science covers a wide field. Diseases of the heart, cancer, Rheumatic fever, polio, etc. are constantly being fought and someday some brilliant scientists will discover cures.

Just recently there was a week set aside to draw to parents' attention the importance of having their children inoculated against Diphtheria, Whooping Cough and Smallpox. All are dread diseases with can cause death but through medical scientific research inoculation of the children make them immune to the three diseases.

How many parents immunized their children against those three diseases? How many did not? In the latter case it would be for two reasons, ignorance on the part of the parents in protecting their children, or secondly they did not wish to cause the children momentary distress when receiving the inoculation.

When medical science discovers cures for dread disease the public should lose no time in taking advantage of them. We should keep abreast of medical science.

#### ROAMING LIVESTOCK

During the past week cattle and horses have been roaming throughout a residential part of town. Despite a by-law in the town which prohibits livestock roaming at large within the incorporated area and calls for them to be impounded these animals still are permitted by their owners to make themselves a public nuisance.

Their latest visit to Fourth street resulted in them destroying the cabbage crop of one resident who had been quite proud of his achievement in cultivating good cabbages this year, while another resident lost all his carrots. Not only did they lose their garden produce but were forced to get out of bed in the wee hours of the morning to chase the animals out of the yards. When damage is done by these animals those losing their garden produce or having their fence broken should be compensated by the owners of the livestock.

Too long have some livestock owners been getting away with "don't give a damn" attitude in permitting their animals to enter residential areas of town

and play havoc with gardens which have been cared for over a period of months only to be destroyed when ready to be harvested. The gardener should be afforded some protection.

## EVERYBODY'S BUSINESS by Don Graham

Do you know why the setting sun is red? What language is spoken in Brazil? How political candidates are chosen?

No, this is not a quiz! It is a way of suggesting that there are countless subjects which most of us never explore.

Yet there are very satisfying rewards waiting those who acquire general knowledge on any subject. The mere act of learning facts has a beneficial effect on one's personality, apart altogether from the usefulness of the information itself.

Where to start? Perhaps the most useful subjects are those related to your work. Next, you might study economics, psychology, history, or whatever else appeals to you and build an interest in it.

Such a program helps make you a more effective worker, a better developed personality and a more interesting conversationalist.

It may surprise you to learn that people in 64 different countries buy life insurance policies from Canadian companies—a fact which proves that Canadians are not the only people who have confidence in these companies and their efficient operation.

## Council Asks Ottawa To Subsidize Milk Prices; Seek Additional Labor For Town Work Projects

Honor Memory Of Late Ex-Mayor Fred Antrobus; Granting of Water Services May Be Costly In Some Cases.

Regular meeting of council was held on Tuesday evening. Present deputy mayor John Ramsay, Councillors Jenkins, Dutil, Lowe and Wood.

Out of respect for the memory of the late ex-mayor Fred Antrobus council stood at one minute's silence. A letter of sympathy will be sent to Mrs. Antrobus by council.

Following the reading of the minutes of the last meeting Councillor Wood objected to the prevailing practice of committee chairmen making decisions on their own without the formality of notifying committee members of their actions. Following discussion it was agreed that in future chairmen will first endeavor to contact their committee members before a decision is made and should they be unable to contact the members and a decision is made the members are to be informed of the decision as soon as possible thereafter.

The 44th annual convention is scheduled for Calgary on Oct. 14-15. Mayor Aboussay, Councillors Lowe and Jenkins will attend. Should Councillor Wilson wish to attend he is to be included in the delegation.

Deputy mayor Ramsay reported on the UMWA sub-district meeting held in Blairmore last Friday. The subject discussed had been milk and it was agreed to write Ottawa asking that a subsidy be placed on milk. It had been agreed at that meeting to have the councils of Coleman and Blairmore also write Ottawa asking for a subsidy on milk. The local council agreed to send the letter.

Joe Biegun asked council to service him with light and water. During discussion it was revealed that three homes on the Flat required water and Norman Plante at the rear of Third street was in need of water. All will be furnished with light. However 500 feet of 4 inch pipe will require three to four months delivery time so that it would not be feasible to give them water service until spring. Mr. Plante will be asked to meet the Light and Water committee to determine how best he can get water services. Due to his location it would cost \$450 to bring it in by Third street and \$125 by Fourth street. In the latter case however, Mr. Plante would be forced to dig through Nez Perce creek and up a steep embankment to reach Fourth street which is a project of considerable magnitude.

A tenant in one of the shacks sitting almost atop Nez Perce creek at the east end of town is without water. Before dredging the creek bed the town foreman asked how deep the water pipe lay in the creek bed and was told by the owner's son that it was deep enough to be out of danger of the dredge. This information proved to be incorrect with the result that the pipe was ripped up by the dredger. The town refuses to relay the pipe and the matter now rests in the hands of the owner Steve Janostak who now resides at Grand Forks, B.C., and who has not replied to a town letter on the subject.

The absence of a monthly report from Medical Health Officer was finally noticed

by council. Secretary was instructed to ask the M.H.O. for monthly reports on the town's sanitary condition.

Council heard a report on an elderly lady who is making herself a public nuisance. On Tuesday evening she threw a rock through a neighbor's window. Chief of Police was asked to investigate the case and have a report ready for council's study at the next meeting.

Much work remains to be done by the town before the freeze up. In order to complete this work it was agreed by council to engage miners on idle days who wish to work for the town at \$7½ per hour which is the prevailing rate of pay for town workmen.

## Help Required At Skating Arena

Volunteer help would be greatly welcomed at the skating arena. All material for re-roofing the arena is now on hand and with a little help it would not take long to get the material in place and the arena made ready for winter.

The flat section of the roof is being covered by a built up roof which means that several rolls of paper are being laid one atop the other and then covered with a thick seal coat of tar. Two rolls of paper and the tar are still to be put into place and with a number of workers it would not require too much time to get the work done.

Be on deck this Saturday and Sunday in work clothes and give a helping hand.

## English Night School Classes Started

On Tuesday evening night classes in English were started in the high school with Mr. James Cousins giving the lecture and approximately twenty men present.

Principal David Hoyle who is attending to the administration of the classes states that he expects over forty students will be in attendance by Saturday. He stated classes will be held each Tuesday evening at 7 o'clock and each Saturday morning at 10 thus accommodating men who are on two shifts.

The classes are wide open and anyone wishing to attend need only contact Principal Hoyle or Mr. Cousins. A government grant of \$250 per lecture is being received and

What this new "Security Plan" will do for him

The Mutual Life of Canada's "Security Plan" enables you to start your child's insurance at a very early age, and at a low cost. Protection starts at \$100 at birth, increasing annually to \$1,000 at age 9 and grading up to \$5,000 at age 20. If money is required for educational purposes when the child reaches university age, the policy may be surrendered for its cash value, otherwise it may be continued at the very low premium rate until age 60 or 65 when a retirement income is available. The Cash Value increases yearly, and dividends are paid annually as declared.

## KITCHEN MEDITATIONS

### The Musician

By JANE DALE

The wind played the music and set the leaves a-dancing To and fro around the yard. As the beats grew faster the leaves skipped higher Out across the boulevard.

The wind played the music and the flowers swung together Upon their long dry stalks. The notes were enticing and the flowers swayed so gaily, They shed their petals on the garden walk.

The wind was the piper and the birds heard the music As they flew from tree to tree. The notes were a farewell; the birds headed southward With the wind as company.

The wind played wild music; the children thrilled to hear it With its promise of ice and snow. The notes were so stirring they set young feet to dancing With eyes and cheeks aglow.

### RECIPES

#### APPLE DUMPLINGS

2 cups sugar  
2 cups water  
1 teaspoon cinnamon and nutmeg  
1 cup butter or good shortening  
6 firm cooking apples  
2 cups sifted flour  
1 teaspoon salt  
2 teaspoons baking powder  
1/2 cup shortening  
1/2 cup milk  
Make syrup of sugar, water, and nutmeg and cinnamon; add butter. Pare and core apples; cut in eighths. Sift flour, salt and baking powder, cut in shortening.

Add milk all at once and stir until moistened. Roll 1/4 inch thick; cut in 3-inch squares. Arrange 4 pieces of apple on each square; sprinkle generously with additional sugar, cinnamon and nutmeg; dot with butter. Fold corners to center; pinch edges together.

Place 1-inch apart in greased baking dish. Pour over syrup. Bake in moderate oven (375 F) for 35 minutes. Serve hot with cream. Makes 6 dumplings.

#### LEMON APPLE SLICES

2 large firm cooking apples  
Juice of 1/2 lemon  
2 tablespoons honey  
2 tablespoons butter  
Cut the apples in slices about 1/2-inch thick and arrange the slices in well-buttered oven dish. Add the lemon juice and add the honey and dot with butter. Bake in moderate oven (350 F.) for about half an hour or until the slices may be easily pierced with toothpick. Serve hot or cold with cream, or use as garnish with roast pork.

## Woman Operating Fur Trading Post Scorns Dictates Of Fashion

WINNIPEG. — The "new look" neither appeals to Mrs. Emma Johnson nor is she obliged by the dictates of fashion to wear it. Virtually the year-round she wears slacks or ski pants, sweaters and a parka.

Mrs. Johnson, widow of a year who has two children, runs a fur trading post at Lost Bay on Uchi Lake about 35 miles from the mining town of Red Lake, Ont. She likes the life so much that she hasn't the slightest intention of "returning to civilization".

"I think I'm the only woman in

## Romanian Prince To Farm In Alberta

EDMONTON. — Prince Constantin Soutzo, 36-year-old former landowner in Romania, arrived in Edmonton recently after escaping from his Communist-dominated homeland.

The Prince said he could not tell how his escape was engineered because "others may use it" but he said it involved 30 hours of "terrible suspense".

Prince Soutzo, an Oxford graduate, said he was forced to flee when the Communists took over the government of Romania and confiscated all land holdings of more than 100 acres.

Prince Soutzo, his wife, a 19-year-old step-daughter, Iona, and a son, Alexander, four, escaped to Switzerland in August and flew to Canada as immigrants. His mother and a second step-daughter, Irene, 18, are expected to come to Canada soon. He plans to take up farming in this district.

the fur-buying business in northern Ontario," she said. "I certainly don't claim to be the only one in Canada because I've read about others in the northwest and in Quebec. But I was the only one at the traders' meetings in Sioux Lookout recently."

Born in Brussels, she came to Winnipeg with her parents as a child. Eight years ago she went to Uchi Lake and shortly after she married the trading post manager. "I learned a lot about fur from my husband but when he died a year ago I felt I was plunging into something quite new. However, I'm learning."

Mrs. Johnson is also learning Cree because she feels it is necessary to speak the language of the great majority of the trappers in her area.

About clothes, she says: "New look? No, I don't like it, it's clumsy. But then, up there I wear slacks orski pants, sweaters, parka, when I'm not handling furs or supplies in the store I'm getting wood or water or doing housework. There's really not much time to worry about clothes."

Mrs. Johnson brought her two children, George, six and Linda, three, to Winnipeg. George is to start school while Linda will have her tonsils removed.

Of the future, she says: "I'll stay there and keep the business going. As long as I can make a living for my children and myself I'm not worried. In fact, I kind of like it."

## Answer To Last Week's Puzzle

## OUR COMPLETE SHORT STORY

## MARKED BY TAG

By JOHN T. KIERAN

YES, Sergeant, Flypaper Haley was saying, this job was pulled by Joe Tabor, all right. There hasn't been another crackman in town for a year. Seems like birds like him would have more sense after getting their wings clipped once. He's back, you know, I'd bet he's back for her. "Yes. And it's too bad for her," the old sergeant said. "She's certainly stuck by him, I'll say that. And he repays her by getting in deeper than ever within a week after he gets out."

"I'll say he's in deeper'n ever. I don't guess he figured on killing Old Hagan. Just thought he'd crack the safe and have a lot of money to get married on. He no doubt knew the store'd had a big sale that day."

"Well, I'm sorry for her," commented the other. "After all the disgrace and her sticking by him the two years he was in stir. It kinda looks like he'd get it for good this time."

He and Flypaper—who had gained his nickname by his persistency on the trail of a criminal—went down to Tabor's cell. The young fellow was sitting disconsolately on his bunk. He seemed a decent appearing, average looking fellow. The face he turned to the men was not at all furtive or sly. The girl was there with him, standing outside the cell. Traces of tears were on her face. She looked at the sergeant half in fear, half in appeal, twisting a limp handkerchief between her fingers.

"Well Tabor, you certainly got yourself in good this time, didn't you?" asked the sergeant.

Tabor didn't answer at first. Two years in prison had taught him tactfulness and caution. Then finally he answered. "Sergeant, I admit I had it coming to me two years ago, even if I wasn't in on the actual safe blowing. I got in with that gang before I met this girl, and before I knew it I was doing time for the whole bunch. They deserted me, just let me ride. But when I saw how she stuck to me, I'd avoid even the appearance of evil after I got out."

"Too bad you couldn't have stuck to your resolution like she stuck to you."

Tabor had nothing more to say, and in a minute more Flypaper and the sergeant left. The last thing the latter saw was the girl's trying to hold back more tears. "It's a shame, a shame," he muttered. "An attractive girl. She oughta get more out of life than this."

The safe in The Central Clothing Store had been blown open Saturday night. Old Hagan, the merchant policeman, hearing the explosion, had opened the door with his skeleton key and rushed in. A bullet had ended his life. Earlier in the evening Flypaper Haley had seen Tabor swing off a freight, and that was evidence enough for him who did it. And to add what further proof was necessary, Andrews, manager of the clothing store, had quickly identified Tabor as the man who had peered into the window late that night when all but he had left the place.

The sergeant walked down to The Central just as Andrews was unlocking the door. "Hard luck," he greeted the slender, pleasant young man.

"But we might still be able to get that money back for you."

"I hope so," Andrews replied fervently. "Else I'll probably be the gate for me as manager. I had no business to leave that much money in the safe. But we were so busy with the safe about three o'clock that I forgot to go to the bank."

"About what time did it happen?"

"Oh—well, it was after midnight, anyhow."

"The would have given Tabor plenty of time to have done it after he hit town."

"Yes. It wasn't done any earlier than that. And Tabor's the man I saw peering into the window. I recognized him again the minute Haley took me to see him."

"I take it that you were here until about twelve, then?"

"Yes. And the lateness was why Tabor took so little pains to conceal himself when he looked in, I guess. Probably thought everyone was gone."

He paused. "But I happened to have quite a bit of work to do, getting ready for Monday's trade, taking the sale tags off of everything left from the sale, and all that."

"They went over to the shattered safe. The sergeant examined some of the charred pieces of clothing that had been piled over and in front of the safe to muffle the explosion. "Set smoldering when the soup went off, I see." He paused. "It was bad enough for him to do this without killing Old Hagan."

He straightened up. "Let's go over to the jail. Maybe two of us can make him talk. I've got something here that may throw some light on the safe."

In a few minutes they were in his office. Flypaper had his feet cocked on the desk, and the sergeant sat down, putting his up on the other side. Rolling a cigar around his mouth he regarded his fellow officer with a triumphant eye. Andrews took the one extra chair.

"Andrews," the sergeant asked, "you say you stayed in the store until after quitting time to take the sale tags off the left-overs, so's no one could claim them at the sale price Monday morning?"

"Exactly. If I hadn't—"

"Well," the officer broke in irreverently, "I led you to just a little, I wanted to get you to just, peaceful like."

"What do you mean?" Andrews rose in anger from his chair. "I was sure you wouldn't tell a false story why you hung around the scene of crime. You hadn't meant to say anything about that. But you had to when I asked how you happened to be there late enough to see Tabor. But listen! You yourself blew the safe so's the robbery would look like an outside job. And all those pieces of clothing you piled around it still had sale tags on 'em!"

MEDICINE HAT, Alta. — British capital, totalling \$40,000,000 may be invested by British industrialists in Alberta. Major James J. Ros, economic analyst, and Morgan Walton, British electrical engineer, are on a survey of Alberta's material resources in the interest of British industrialists.

WINNIPEG. — Qualified teachers are at a premium in Manitoba. The provincial department of education already has issued permits to about 500 persons with grade XI and XII standing who attended a six weeks' training course this summer.

LEADER, Sask. — A series of meetings in agricultural district No. 11 have been arranged by V. Rea, agricultural representative, and the respective agricultural committees in each of the municipalities in the district, the meetings to take the form of farm variety shows.

VICTORIA. — Every province in Canada except Prince Edward Island contributed to the influx of families into British Columbia during September, W. R. Bone, regional director of family allowance, announced. The figures show that 520 families receiving allowances came to B.C. while 370 left a net loss of 150. Saskatchewan led, sending 144 families and taking 78.

EDMONTON. — Unwelcome tourists are reaching Alberta from Saskatchewan and points east and J. H. Brown, provincial entomologist, is warning Albertans to watch for them. He says the province, believed the only comparatively rat-free section of the northern hemisphere, is in danger of losing its title.

ESTEVAN, Sask. — Albert Blondeau walking on a high beam in his home one and a half miles southwest of Estevan discovered some scattered bones believed to be those of a human. Mr. Blondeau said there was no evidence of a coffin, and it was believed the grave might be that of an Indian.

## MANITOBA CROPS AVERAGE \$4,000

WINNIPEG. — Average net return for each Manitoba farm during the 1948 crop year likely will approximate a record \$4,000, the provincial department of agriculture reported. The 1947 figure, on the basis of 50,500 farms in the province, recorded up to that time.

The department added that in no year in the province's history has so big a percentage of the crop gone into storage with so little loss by weather deterioration.

## RED CROSS OPENS OUTPOST HOSPITAL

ARBORFIELD, Sask. — An outpost hospital at Arborfield, 35 miles northeast of Tisdale has been opened by the Red Cross to serve emergency and maternity cases. A home in the village was renovated during the summer, and now contains six beds, a nursery, X-ray facilities, a laundry, and quarters for the staff. Miss Marie Kidon is nurse in charge.

To freshen tepals, boil a mild solution of vinegar in them.

MOTHER FIRST, QUEEN SECOND... JULIANA—Queen Juliana of the Netherlands and her consort, Prince Bernhard, caught in an informal pose trying to coax the youngest member of the family to put on her best behavior for the camera. The children are Princesses Beatrix, Irene, Margriet (who was born in Ottawa) and Maria Christina. The queen has already made it clear that even the responsibility of becoming the ruler of the Netherlands will not be allowed to interfere in the way her home is run or in her care of her four daughters.—S.N.S. photo.

## PLASTICS INDUSTRY GROWING AT FAST RATE IN CANADA

OTTAWA. — The manufacture of plastics in Canada is climbing into position as a prominent and fast-growing industry, according to the latest figures released here by the Dominion Bureau of Statistics. The Bureau states that the gross factory value of plastics and plastic products turned out by the Dominion in 1946 showed an increase of 36 per cent over the previous year's total. Plastic manufactures in 1946 were valued at \$21,240,000 as compared with \$15,604,000 in 1945. The agency said the number of plants engaged in this industry rose from 46 in 1945 to 78 in 1946.

## Donate Apples To Hospitals

KENTVILLE, N.S. — The Dominion Government is going to donate \$2 million worth of processed apples, now in Annapolis Valley storage plants, to Canadian hospitals and charitable institutions. The government owns the apples part of last year's surplus crop. With the loss of the United Kingdom fresh and processed apple markets, the marketing agreement between the government and the Nova Scotia Fruit Growers' Association contained a government guarantee for processing. A new improved highway now links Paraguay and Argentina.

## Farmers To Get \$14,000,000 Aid

REGINA.—The Federally-operated Prairie Farm Assistance Act will pay 60,000 farmers in the three Prairie provinces \$14,000,000 for the crop season 1948-49. R. F. McGregor, P.F.A.A. director, in making the announcement, said cheques covering 60 per cent of the total will be mailed in December. The balance will be mailed in March, 1949.

Some 2,000 townships in the three provinces will benefit under the act. Mr. McGregor said crop loss this year was due mainly to drought, although grasshoppers caused damage in some areas.

Saskatchewan's slice of the total will be \$12,000,000 to be distributed to 1,300 townships. Alberta draws \$1,500,000 for 600 townships and Manitoba the remaining \$500,000 for 200 townships.

## Europe's Harvest Reported Good

LONDON.—Most of Europe's harvest is in, and it's the biggest since before the war.

In almost every country reporting in an Associated Press survey, there were heavy yields of grains and vegetables—heavy enough, probably to permit relaxation of at least some food rationing orders.

Last year, when Europe was in direst need, drought ruined many crops. This year rainfall has been ample and increased acreages were under cultivation.

In the opinion of some experts, the big crops came in the nick of time and should help to ease political and social tensions. No over-all statistics on the Russian harvest are available, but everything indicates it is good.

## Claim Staking In Saskatchewan New High Record

REGINA. — A record 731 quartz mining claims have been recorded in the Precambrian areas of Saskatchewan so far this year, according to a statement by Resources Minister J. H. Brockiebank. Saskatchewan's most active staking year before was 1936 when the Lake Athabasca gold rush was on when 651 claims were staked.

## Canada To Get Dried Fruit From Australia

OTTAWA. — Canada will receive one-fifth of Australia's 1948 production of dried vine fruits, principally sultanas and currants, Australian high commissioner's office said.

Canada's share will be 16,126 tons out of a total of 81,000 tons. Canadian imports of fruit from Australia will include 300,000 cases of tinned pineapples, half of which have already arrived.

Australia will also ship 77,800 cases of canned fruits—apricots, peaches and pears—to this country.

## Father Has No Control Of Drinking, Poker-Playing Sons

VANCOUVER. — Report that as many as 15 boys, teen-age and younger, gather at a city home for poker games and drinking was made to police.

R. A. Wall, that neighbors' children were destroying his fence and other property.

Several residents told of the poker gatherings at a nearby house where two boys, 16 and 11, lived.

Father of the two boys said he had "no control" over them. Police are investigating.

## CONTAINS NAMES OF CANADIAN WAR DEAD

OTTAWA. — A golden book containing the names of all Canadian soldiers buried in the cemetery of Adegem, near Ghent, Belgium, has been placed in the Public Archives of Canada Prime Minister Mackenzie King's office said in a statement that Mr. King received the book from Major Le Clermont Desautels-Mercier of Ghent shortly before his departure for Europe recently.

## ACKNOWLEDGEMENT

Dear Adam:  
 Indeed it was a great surprise to hear from you. It made one kind of think of the good old days in Coleman.

Well Adam I am very grateful for the lovely shield and wallet you people of Coleman have sent me, it's really nice of them, and

I want you to thank them for it.

How is good old Coleman? I some times wish I was back there. I guess the mines are still busy.

How is Allan Brown? Give him my regards, always in a hurry or has he retired?

Now Adam I may tell you that I am engaged in the fishing ever since I came home, and doing fairly good at it. I had big fishing last winter, and doing well this summer. I am expecting to go down to Yarmouth England this winter.

Now Adam if you ever visit Scotland give us a call. This country is alright for work but the weather is terrible.

That's about all the news I have for you. Hope to hear from you again.

Give my regards to Mrs. Daly and Danny and the friends.  
 Malcolm Smith.

THANKSGIVING DAY,  
 MONDAY, OCTOBER 11

Monday, Oct. 11, is Thanksgiving day and a statutory holiday. All stores and offices will be closed and housewives are asked to stock up in groceries to take them over the long weekend.
